Item 704 MOBILE SATELLITE ACCESS SERVICE

Service Description 704.1

(a) This arrangement provides the Central Office equipment and facilities necessary for the interconnection of Mobile Satellite Ventures Corp. (MSV) mobile satellite network with the Carriers' Public Switched Telephone Network (PSTN). MSV has been designated by Industry Canada to operate a mobile satellite communications system (MSAT). This service is subject to the availability of suitable facilities. MSV's equipment shall meet the specifications as established by Industry Canada. Mobile Satellite Access Service consists of the following: **C**

(1) Access Numbers: Seven-digit telephone numbers with outpulsing assigned from an appropriately equipped line-serving switch. Access numbers are provided as a dedicated group of 10,000 consecutive telephone numbers (an entire NXX). A one-time charge applies to open an NXX in the 600 Service Access Code (SAC) across the Carriers' network. A service charge applies to activate each 600 NXX code, assigned to MSV by Industry Canada, in Bell Canada's serving Wire Centre. Charges per 10,000 access numbers are specified in Item 704.3 (a)(1) a. and b. **C**

(2) Link: Link provides the Wire Centre equipment required to terminate a digital Access Channel in Bell Canada's line-serving switch Wire Centre. A Link is associated with each Access Channel and is provided at the rate specified in Item 704.3 (a)(2). **C**
