Re: Group Telecom - New Conduit Requirement

Dear Jack,

Following up on our discussion of last week and after a route selection essentially based on being least disruptive, please consider this letter and the attached sketch as a formal request, on behalf of our client - Group Telecom(GT) c/o Mr. Jim Mackenzie, to access your building for the purposes of establishing Fibre Optic telecommunications equipment to their location in 155 Carlton.

The requirement is to establish new routes from each of the Telephone Rooms in 160 and 170 Hargrave St to the Client location in 155 Carlton.

The route has been reviewed with your staff. I would like to note the following specifics are anticipated to transpire.

- Removable panels area will be utilized as the route for the Holiday Towers S - 155 Route,
- There is a requirement to remove some drywall on the Holiday Tower North run. All buildings will be restored to their original condition as part of the contract and to the satisfaction of the bldg owner,
- The parkade conduit will not reduce overhead clearance,
- All work is to be completed by a certified Electrical Contractor.

Please review and comment on the proposal as presented. A review and hopeful approval at your earliest convenience would be very much appreciated as there is a requirement to have the facility in place for December 15th, 2000.

If there are any questions regarding this proposal, please contact Claude Valcourt or myself at 953-1450.

Sincerely,

President - KEY Telecom Services Inc.
